

Click **File** and then **Make a Copy** to make this doc your own.

Remote Learning with Kami: (iPhone Version) For Students

Getting started with Kami's integration with Google Classroom™

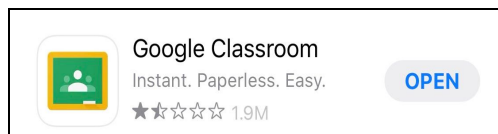

Step 1

- Install the **Google Chrome app** on your iPhone. We will come back to this part later.

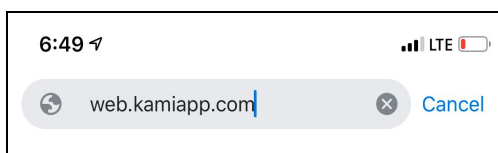

Step 2

- Go to your google classroom app, open your class, and go to **Classwork**. Open your **Assignment**, and look at the **name of the file** you wish to work on. You will need this information for step 5.

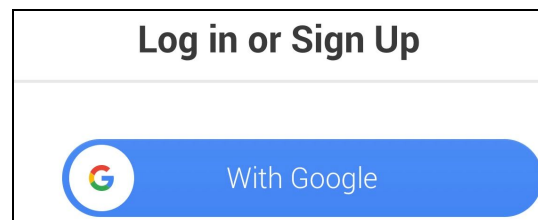

Step 3

- Open your **google chrome app** and go to **web.kamiapp.com**. Do not use Safari browser!

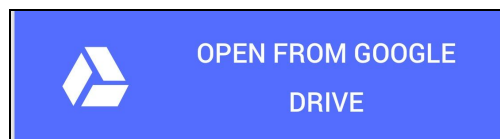

Step 4

- Click **sign in**, then log in **with google** (using your school email and password). This will directly link your new kami account to your google classroom.

Step 5

- Load up the assignment you wanted using the **open from google drive** for any files assigned via google classroom. Once you find it, click it, then press select.

Step 6

- Once you're finished with your work, click the **Turn In** button. This will submit your work to your teacher. Yay! You've now completed and submitted your assignment.

Additional notes: We will be using Kami all year. I know it takes some getting used to at first, but you will get better. If you need help, I can assist or even accommodate the first few weeks of the year. I want this transition to online school to be as easy as possible for all of us!
